NOW, THEREFORE, the Village Board of the Village of Dickeyville, Grant County, Wisconsin, does ordain as follows:

**Section 1:** Chapter 117 entitled “Building Construction”, Section 117-9 entitled “Fire Department” of the Village of Dickeyville Municipal Code shall be and hereby is added:

**§ 117-9 Fire Department**

- A. Intent of Code. It is the intent of this code to enforce regulations consistent with national and state recognized fire protection codes. The primary intent of the code will be the safeguarding of life and property from the hazards of fire, smoke and toxic fumes within the jurisdiction of the Dickeyville-Paris Fire Department.
- B. Adoption of Orders, Codes, Rules and Standard Operating Guidelines. All provisions of the National Fire Protection Association (NFPA) Codes and Standards dealing with building design, construction, operation, and maintenance requirements are hereby adopted by reference, most specifically NFPA 1 “Fire Code” and NFPA 101 “Life Safety Code.”
- C. Authority to Enter Premises. Dickeyville-Paris Fire Department personnel may during reasonable hours, enter any building or premises within the jurisdiction of the department for the purpose of making any inspection or investigation under the auspices of the NFPA codes. Private dwellings shall not be entered without the consent of permission of an adult occupant and do not typically fall within the purview of the fire department.
- D. Inspection of Buildings and Premises with the Jurisdiction of the Dickeyville-Paris Fire Department.
- (1) The fire chief shall ensure that all buildings and premises that fall under the purview of the fire department are inspected as often as may be necessary to ensure compliance with all codes. Typically, the time frame to inspect businesses within the jurisdiction of the Dickeyville-Paris Fire Department shall be:
- (a) Inspections within the Village of Dickeyville shall be conducted at least once per calendar year. For businesses with a history of habitual violations, the Fire Chief may deem it appropriate, for the safety of the public, to inspect certain businesses more frequently.
- (b) Penalties for non-compliance. The first fire inspection to any business is considered to fall under the State of Wisconsin’s 2% dues program. As such, if any noted fire code violations are not corrected within the timeframe noted on the inspection report, the Deputy Chief shall send a reminder letter to the business at no additional charge. If the business still does not prove compliance by informing the fire department, and a subsequent visit by fire department personnel is necessary, the charges for such visits are as follows:
1. 2<sup>nd</sup> visit After reminder letter: \$50.00
  2. 3<sup>rd</sup> visit, if necessary: \$100
  3. If still no compliance after the Three-Strike Rule (refer to Section E below), the business owner will then be issued a citation.
- E. Three – Strike Rule
- (1) Any business identified with a fire code violation will typically have 30 days to correct the deficiencies. NFPA 101 Life Safety Code violations that present a significant threat to life must be corrected immediately. The timeframe to correct deficiencies will be identified in the inspection report or through correspondence from the deputy fire chief. Any fire code violations not corrected within the specified time allotment will be warned again and 15 days will be given to correct non-Life Safety Code violations. Failure to correct the identified violation after the second notice will result in the application of Section D above.
- (2) After a citation is issued by the fire department, the violator will work with the village attorney’s office.
- (3) Each day the violation goes uncorrected after the citation has been issued will constitute a separate violation.
- F. New Construction Permits
- (1) Any new construction in the Village of Dickeyville will take out a permit with the building inspector’s office. At such time, the building inspector’s office will notify each individual inspector (building, electrical, fire, and plumbing) of the new construction.
- (2) This tracking mechanism will allow any new construction within the Village of Dickeyville to be placed on the fire inspection list in an expeditious manner.
- G. Knox Boxes. All new commercial construction within the Village of Dickeyville will be required to place a Knox Box on the outside of the structure that is accessible only to the fire department in the event of an emergency. Application may be obtained at the fire station or Village Office. Contractors may contact the fire department to request a recommended location for the Knox Box.
