

I'd like the world to know Donnie's Tire & Auto in Dickeyville, Wisc. is an excellent place to do business. On Saturday morning Sept. 8, 2018 I was a stranger in town from Knoxville, Iowa as part of a vintage car tour. The brakes on my 59 Bonneville locked up. Donnie dropped what he was doing, took his son along, and went to check out my problem. He analyzed the problem and took care of the repair. Donnie was super cheerful throughout the procedure while explaining what he was thinking and doing. When I offered payment, Don told of the satisfaction he gets anytime he is able to help a stranger who is stranded. Norman Robinson
